Hey Eric,

I am not going to be able to get to all these today. I got 2 up (check My Air Sub-Sites). If you really need them done you can submit them through the request a new sub-site and then shoot Jaslyn and/or Candice an email letting them know they are there.

I am out all next week starting... now!

Would you mind using the “request a new Sub-site” feature on the SharePoint main page? It helps me keep track of what has been asked for and what I still have to make.

That reminds me of another action thought that I will need ORC input on. Can you also create a subsite for Merit Energy – Circle Ridge Tank Battery – SMNSR Permit add include Sara L. on it?

Thanks.

Eric

Sounds good. I'll leave her off for now. I don't know how many of the lawyers are using my action list anyway.

I was kidding. ORC review won't be required for these actions, but you can list Sara L. if you need to list someone. I don't anticipate any legal review at this time.

I believe they are Colin's but some of them may go away (permit no longer required).
